

Knight Foundation School of Computing and Information Sciences

Course Title: Mathematical Logic

Date: 03/20/2010

Course Number: MHF 4302

Number of Credits: 3

Subject Area: Foundations	Subject Area Coordinator: Hadi Amini email: amini@cs.fiu.edu
Catalog Description: A study of formal logical systems and their applications to the foundations of mathematics. Topics to be selected from the following: definition of mathematical proofs; set theory; analysis formalized with the predicate calculus; theorem of Gödel and Church; recursive function theory; and idealized computers.	
Textbook:	
References:	
Prerequisite Courses: MAA 3200 or MAD 3512	
Corequisite Courses: None	

Type: Elective for CS (Foundations group)

Prerequisites Topics:

Course Outcomes:

1. Master formal proofs in propositional and predicate logic.
2. Master logical concepts such as soundness and completeness.
3. Be familiar with applications of logic to the foundations of mathematics, such as set theory and analysis.
4. Be familiar with the limitative results of Gödel and Church.

Mathematical Logic

Relationship between Course Outcomes and Program Outcomes

BS in CS: Program Outcomes	Course Outcomes
a) Demonstrate proficiency in the foundation areas of Computer Science including mathematics, discrete structures, logic and the theory of algorithms	1, 2, 3, 4
b) Demonstrate proficiency in various areas of Computer Science including data structures and algorithms, concepts of programming languages and computer systems.	
c) Demonstrate proficiency in problem solving and application of software engineering techniques	
d) Demonstrate mastery of at least one modern programming language and proficiency in at least one other.	
e) Demonstrate understanding of the social and ethical concerns of the practicing computer scientist.	
f) Demonstrate the ability to work cooperatively in teams.	
g) Demonstrate effective communication skills.	

Assessment Plan for the Course & how Data in the Course are used to assess Program Outcomes

Student and Instructor Course Outcome Surveys are administered at the conclusion of each offering, and are evaluated as described in the School's Assessment Plan:
